**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Sept 1, 2018

Dear FCC,

I have been very happy with SONIC.net, a provider which supports the Bridge2Broadband. After spending several problem prone years with ATT Universe DSL (in both service and in deceptive, fraudulent business practices) in my optometry office here in Petaluma, CA, I switched to SONIC.net and have nothing but praise for their services, competitive rates, and business practices over the last five years. Being in health care, I need very reliable and efficient Internet connections in dealing with labs, optical vendors, other doctors, and vision insurance companies. I could not get that with ATT or COMCAST (who could not provide service to our shopping center at the time). Companies like SONIC have given consumers like me local, workable, alternatives for Internet access. That should be encouraged, not hindered.

Sincerely,

Gordon Wong
